## **INFORMATION FOR THE PROFESSIONAL REVIEW FOR CANCER REGISTRARS, A STUDY GUIDE, (4<sup>th</sup> EDITION)**

The Fourth Edition features eight (8) chapters with the following titles:

- 1) Test Taking Strategies
- 2) Principles of Oncology
- 3) Review of Systems
- 4) Cancer Program Organization and Management
- 5) Glossary of Computer Terminology
- 6) Biostatistics for Cancer Registrars
- 7) International Classification of Diseases for Oncology (ICD-0)
- 8) Oncology Terminology

The Fourth Edition of the Study Guide was created in 2004 to include:

ICD-O-3

FORDS and COC standards changes for 2003 and 2004

Benign and borderline central nervous system tumors

Collaborative Staging.

Thank you for your interest in our organization's fine publication. It is an excellent study and reference guide for any registrar or hospital library.
